THE CITY COUNCIL OF THE CITY OF GIG HARBOR, WASHINGTON, ORDAINS AS FOLLOWS:

Section 1. Park, Recreation, & Open Space Plan. The City Council hereby incorporates the adopted March 2001 Park, Recreation, & Open Space Plan (Ordinance No. 930) by reference as the park and recreation element of the City's Comprehensive Plan.

Section 2. Wastewater Plan. The City Council hereby adopts amendments to the February 2002 City of Gig Harbor Wastewater Comprehensive Plan (Ordinance No. 921), as outlined in Exhibit A, by reference.

Section 3. Comprehensive Land Use Map and Plan Text Amendments.

A. **Notice.** The City Clerk confirmed that public notice of the public hearings held by the City Council on the following applications was provided.

B. **Hearing Procedure.** The City Council's consideration of the comprehensive land use map and plan text amendments is a legislative act. The Appearance of Fairness doctrine does not apply.

C. **Testimony.** The following persons testified on the applications at the July 14, 2003 public hearing:

1. Bob Thorpe – 8020 Goodman Dr. NW. Opposed a commercial center.
2. Linda Gair - 3306 North Harborview Dr. Asked Council not to rush to judgment by granting the comp plan amendments, and not to “sell us out.”
3. Lauren Bingham Miller – Bellevue. Spoke in favor of the comp plan amendment proposed by SHDP.
4. Craig Shurick – 5616 Old Stump Drive. Doesn't know whether or not the increase in commercial area should occur, but that he trusts the Council's judgment
5. Dave Seiwerath – 6919 Cascade Ave. Spoke in favor of the plan to increase the commercial area, stressing that the city needs to look to the future needs.

6. Jack Bujacich – 3607 Ross Avenue. Spoke in support of the upgraded Comprehensive Plan.
7. Dave Folsom – 3160 Ann Marie Court. Voiced his concerns over water limitations; he was not opposed to a Costco, but not necessarily at this site.
8. Dale Pinney – First Western Development / SHDP – 1359 205th St. NW. Discussed the step-down zoning and the 55+ community and how this concept utilizes a consistent zoning pattern rather than placing commercial next to low-density, concluded that this proposal retains the original Planned Community Development concept. He introduced Terry Gibson to address traffic concerns.
9. Terry Gibson – 4610 131st St Ct NW. Explained that he had conducted extensive traffic studies on this area, he concluded that with improvements, Borgen Boulevard would have sufficient capacity to accommodate both the predicted growth to the year 2022 with the existing zoning and also accommodate the Costco North proposal before Council now.
10. Jon Rose – Olympic Property Group. Explained that a traffic study had been done by an OPG engineer and reviewed by the city. The study indicated that there were no un-resolvable level of service issues and said that everyone seemed to agree that Borgen Boulevard was able to handle the increased traffic flow. He requested modifications to this report, adding that it did not matter if this occurred in the OPG application or the city's application.

The first modification is to increase the 20 acres to 25 acres of commercial and second modification is to approve the Village designation at this time.

11. Scott Schenks – SHDP – 1359 51st Street - Shoreline. Explained that his company has gathered a great deal of information in order to assist Council to make an informed decision.

There were no more comments and the Mayor closed the Public Hearing at 8:33 p.m. and announced a short recess.

ORDINANCE NO. 933

Exhibit A
February 2002 Wastewater Comprehensive Plan
2003 Annual Amendments

COLLECTION SYSTEM EXPANSIONS AMENDMENT

SYSTEM EXPANSION C-7 (Olympic Drive)

SUMMARY

The proposed capital improvements to be completed within the 20-year planning period drainage basin C-7 are summarized in Figure 1. The basin will be served by an 8" trunk line on 38th Avenue, with 8" lateral lines on 60th Street, Olympic Drive, Norwood Estates, and Briarwood Lane.

This plan change is shown in Figure 2. Recent field topographic work conducted as part of the Olympic Drive/56th Street Improvement Design Project indicates the finished grade along 56th St. decreases as one travels easterly away from 38th Ave. The roadway sag is located at the most eastern terminus manhole on the proposed 8-inch gravity sewer line as shown in Figure 1. The Adopted Comprehensive Plan reflects an 8-inch gravity trunk line flowing towards 38th Ave. The Comp Plan designer incorrectly assumed the road grade along Olympic was flowing in this direction. This plan amendment corrects this oversight and provides for the following features:

- 384 feet of 8-inch gravity sewer along Olympic Drive serving a total of 6 lots.
- A new pump station would be installed at the low point on Olympic. The lift station will be sized for 120 gpm in order to maintain the minimum scouring velocity in the force main.
- 779 feet of 4-inch force main flowing to an existing gravity trunk line located on Olympic.

It is anticipated that this plan amendment would be constructed within the next six (6) years. Construction of the gravity and force main is anticipated to be constructed as part of the Olympic/56th Street Improvement Project. The lift station will be constructed as part of private development. Should private development preclude the roadway project, then the entire project will be funded and constructed by private development.

IMPACTS

FISCAL

The City estimated construction costs are:

- | | |
|--|---------------------|
| • Gravity sewer line and side sewer lateral: | \$ 40,000 |
| • Force Main: | <u>\$ 25,000</u> |
| • Lift Station: | (Developer Funded)* |

• Subtotal:	\$ 65,000
• Sales Tax (8.4%):	<u>\$ 5,500</u>
• Subtotal:	\$ 70,500
• Contingency (10%):	<u>\$ 7,500</u>
• Subtotal:	\$ 78,000
• Engineering, Overhaul and Administration (10%):	<u>\$ 7,800</u>
• Total Cost:	\$ 85,800

* Estimated Construction Cost By Developer \$177,000

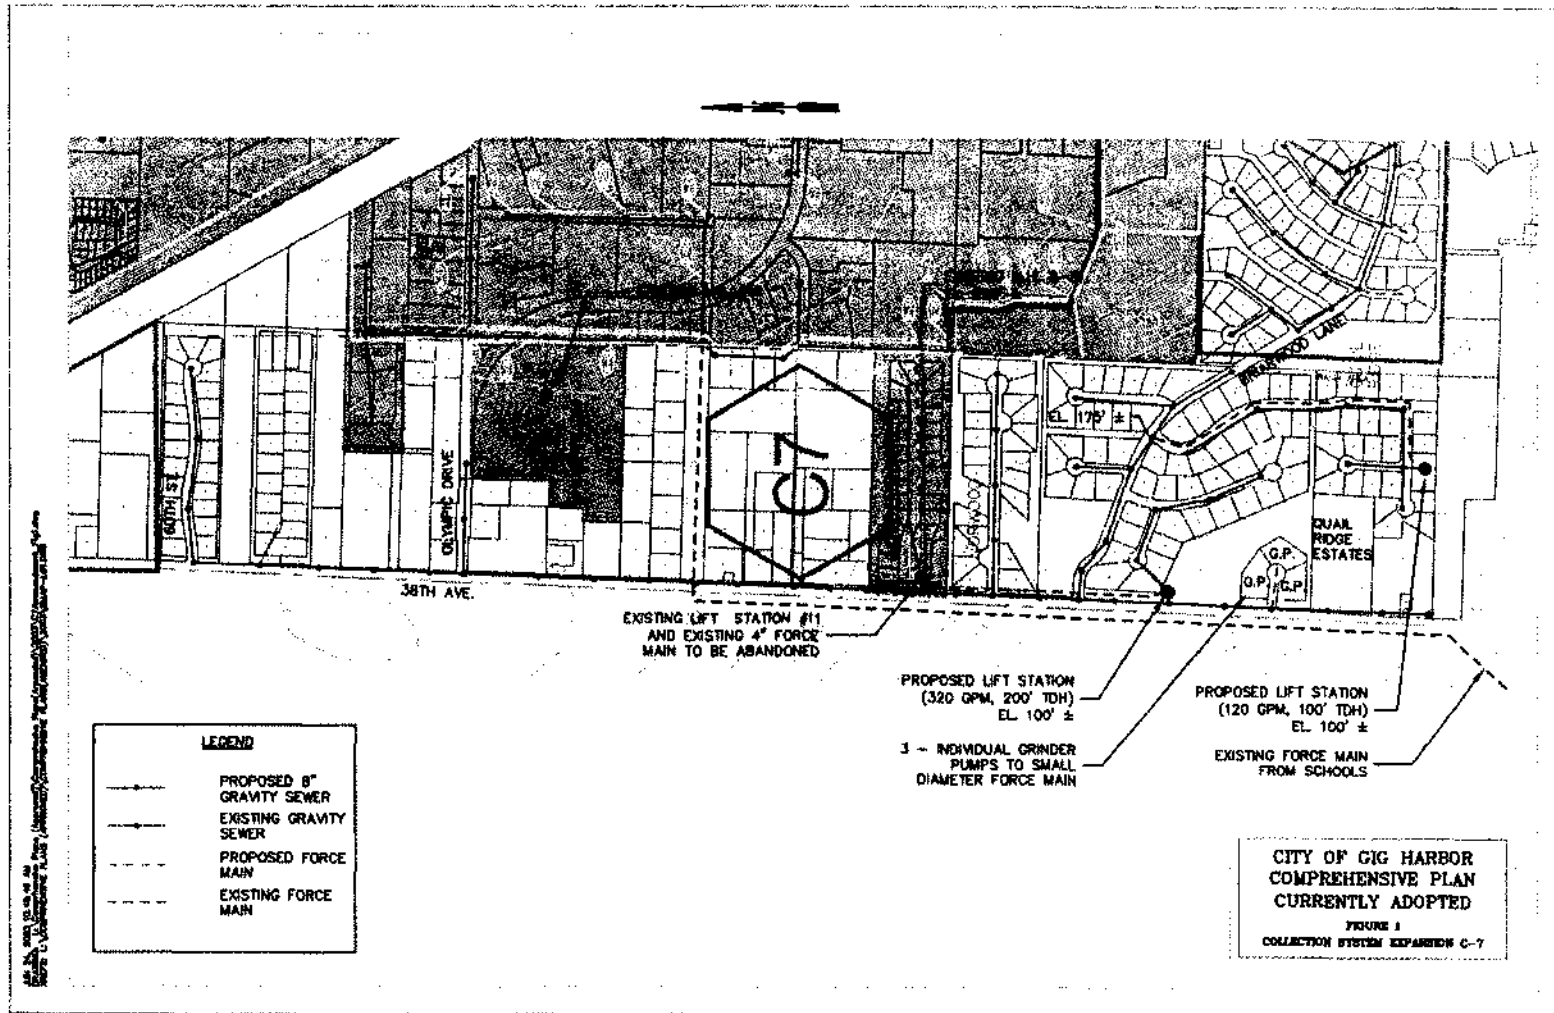

Sufficient Funds exist within the City's Sanitary Sewer Operating Fund to fund this improvement, if it were to be constructed as part of the City's roadway improvement project.

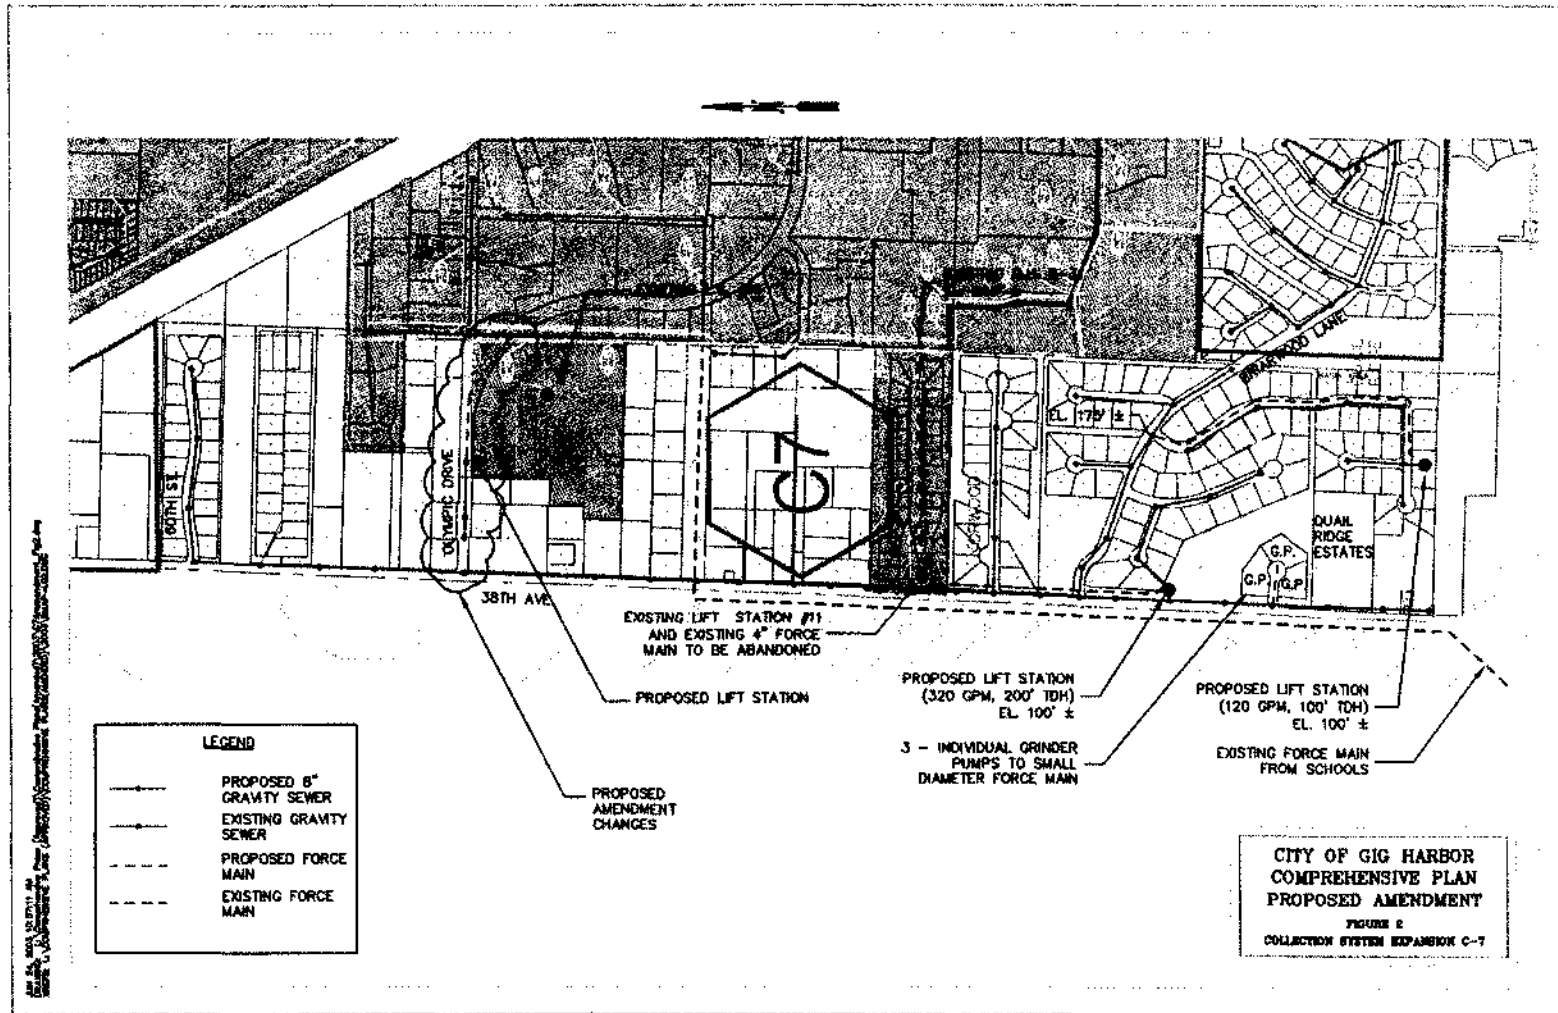

EXISTING CITY FACILITIES

The proposed improvements will generate approximately 1,800 gallons of sewage flow per day (6 ERUs). There will not be any consequential impacts to the City's existing downstream conveyance system.

ENVIRONMENTAL

The proposed improvements will not have any environmental impacts. A SEPA checklist is being prepared for the Street Improvement Project. A component of the checklist will address the sanitary sewer improvement portion of the project.

COLLECTION SYSTEM EXPANSIONS AMENDMENT

SYSTEM EXPANSION C-8 (Hazen Short Plat)

SUMMARY

The proposed capital improvements to be completed within the 20-year planning period for drainage basin C-8 are summarized in Figure 1. The basin will be served by an 8" trunk line on Hunt St. and Reid Dr. (AKA 64th Street Northwest), 2 new force mains, and 2 new lift stations. Reports of failing septic tanks make this basin a relatively high priority for sewer service.

The applicant, Linda Hazen, is proposing to subdivide her property into a four (4) lot short plat. Her property fronts the 2nd proposed manhole on 64th Street Northwest. In order for short plat approval, Ms. Hazen would be required to construct all the sanitary improvements shown in Figure 1. The estimated costs for the improvements would amount to \$3M dollars.

The applicant is proposing to construct a portion of the gravity sewer along 64th Street Northwest, and then proceed northerly across her and the adjacent property to the north through a 20 ft. wide City-access utility easement and connect to the City's sewer system on Cascade St.

The plan change is shown in Figure 2. This plan amendment provides the following features:

- Approximately 205 feet of 8-inch gravity sewer on 64th Street Northwest, extending across the entire frontage of the applicant's property.
- Approximately 750 feet of 8-inch gravity sewer along a 20 ft. wide utility easement connecting into the existing City sewer system on Cascade St.

It is anticipated that this plan amendment would be constructed within the next six (6) years.

IMPACTS

FISCAL

Construction funding for this project will be provided entirely by the developer. City funds will not be expensed as part of the construction project.

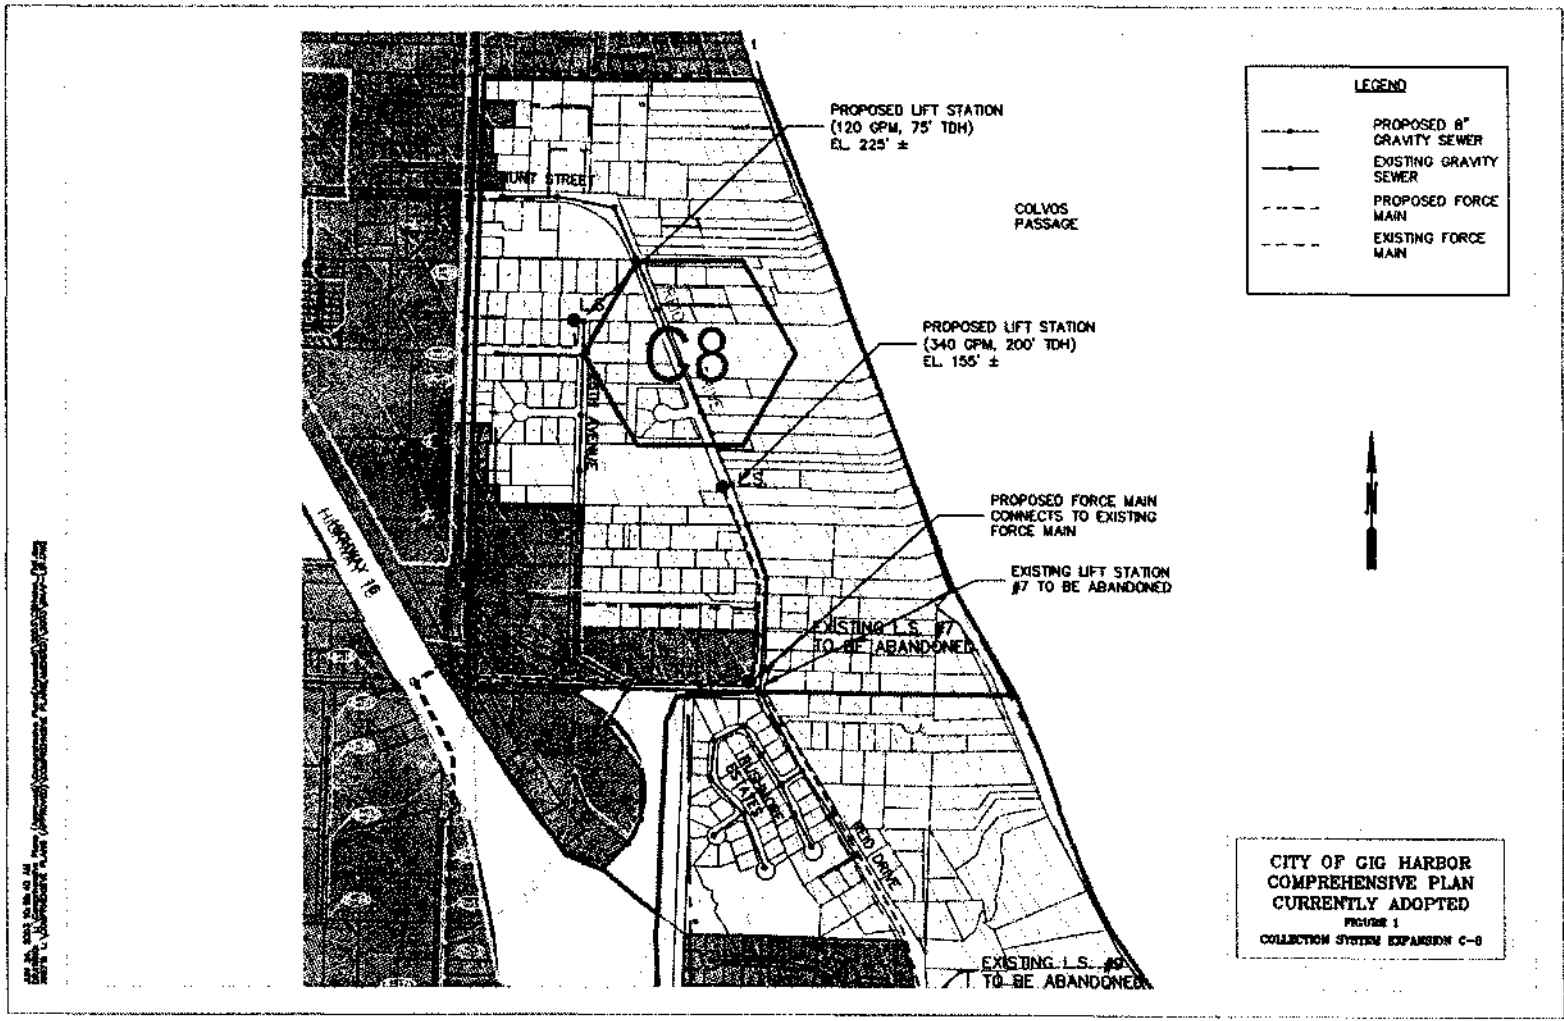

EXISTING CITY FACILITIES

The proposed improvements will generate approximately an additional 8,400 gallons of average sewage flow per day (28 ERUs). Engineering calculations provided by the applicant's engineer were confirmed through an independent review by a City

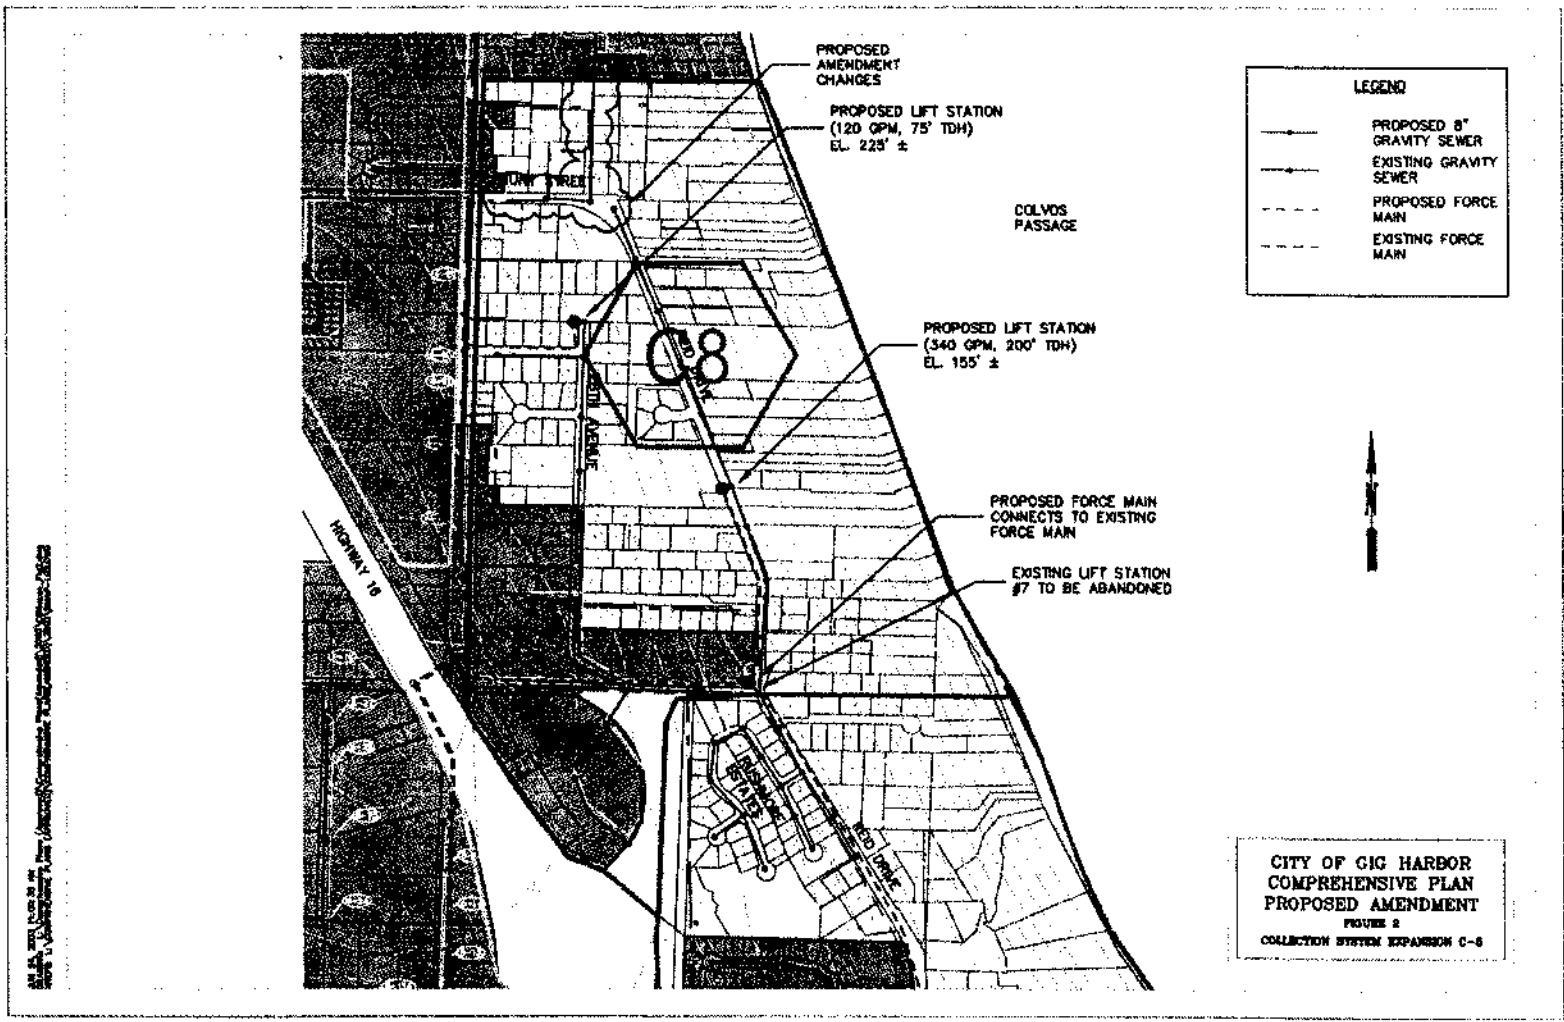

engineering consultant. The results concluded there would not be any adverse impacts to the City's downstream sewage lift station and conveyance system.

ENVIRONMENTAL

It is not anticipated the proposed improvements will have any environmental impacts. A SEPA checklist will be required to be prepared by the Developer during the plan review process.

A Planned Community Development (PCD) incorporates the following generalized land use categories:

- Planned Community Development Residential Low (PCD-RLD, 4.0 - 7.0 dwelling units per acre) - Provides for well designed residential developments which are located to minimize adverse effects on the environment or sensitive natural areas; provides for clustering of dwelling units to protect important natural features and amenities, limit the costs of development and public service costs and to maintain, enhance and

complement the natural beauty of the Gig Harbor community; and allows unique and innovative residential development concepts that will provide for unconventional neighborhoods, provide affordable housing for a wide range of income levels, maintain or enhance community linkages and associations with other neighborhoods, and to allow village and traditional neighborhood forms.

- Planned Community Development Residential Medium (PCD-RMD, 8.0 - 16.0 dwelling units per acre) - Provides for greater population densities to facilitate high quality affordable housing, a greater range of lifestyles and income levels; provides for the efficient delivery of public services and to increase residents' accessibility to employment, transportation and shopping; and serves as a buffer and transition area between more intensively developed areas and lower density residential areas.
- Planned Community Development Commercial (PCD-C) - Provides for the location of businesses serving shoppers and patrons on a wider basis as distinguished from a neighborhood area; encourages urban development; encourages attractive natural appearing development and landscaping; promotes a quality visual environment by establishing standards for design, size and shape of buildings that create an attractive business climate; and where appropriate, residential uses should be located above commercial uses.
- Planned Community Development Business Park (PCD-BP) - Provides for the location of high quality design development and operational standards for technology research and development facilities, light assembly, and warehousing, associated support service and retail uses, business and professional office uses, corporate headquarters and other supporting enterprises; is intended to be devoid of nuisance factors, hazards and potentially high public facility demands; and retail uses are not encouraged in order to preserve these districts for major employment opportunities and to reduce the demand for vehicular access.
- Planned Community Development Neighborhood Business (PCD-NB) - Provides for businesses serving the everyday needs of neighboring residents; is limited in overall site area and availability of uses and is not intended to provide regional retail facilities; and provides retail and service uses that are easily accessible to local residents.

Planning Commission recommended Planned Community Development (PCD) Comprehensive Plan Land Use Map [This proposed map is based upon the existing zoning currently in place and represents no proposed increase in the amount commercially designated land]:
